

WORKSHOP ON E-WASTE MANAGEMENT: A GREEN CAMPUS INITIATIVE

E-waste management is crucial for environmental sustainability and to raise awareness, a Workshop was arranged by the NSS cell in collaboration with IQAC of Presidency University and Switch ON Foundation on 28th April, 2023 to acquaint the University Staffs and students with the environmental issue. The workshop began with a brief introduction about e-waste and how it is generated. The speaker Dr. Sanghamitra Mukherjee explained the hazardous and toxic effects of this menace and how it is a growing challenge to us.

The environmental impact of e-waste and associated health risks were discussed. The concept of Circular economy and how it applies to e-waste management, emphasizing the the importance of reducing, reusing, and recycling electronic products were also presented. Various Best practices and Case studies were highlighted. Later, Switch ON foundation took to stage and shared their journey so far as an Environment Conservation Society working across Clean Air and Sustainable Cities and Energy, Water, and Agriculture Nexus. The presentation was followed by an interactive session and the workshop attendees were encouraged to take action by committing to responsible e-waste management practices in their personal and professional lives.
